

## QUALITY POLICY STATEMENT:

Tiger Offshore Rentals is an industry leader dedicated to the highest standard of quality as we strive to be our customer's first choice. Our goal is to continuously improve our customer service, and we have established a Quality Management System that provides a framework for measuring and improving our performance. We have implemented the disciplines of ISO 9001 to develop and maintain the processes needed to provide rental equipment and services to our customers.

Tiger Offshore is committed to:

- **Clients:** Foster good relationships through effective communication and encouraging feedback
- **Compliance:** Operate within the limits of all applicable legislations, guidelines and standards of each jurisdiction in which we work. Comply with the Foreign Corrupt Practices Act (FCPA)
- **Maintenance:** Ensure the quality of our equipment through inspection, testing and preventive maintenance programs
- **Excellence:** Establish and measure quality objective targets through internal audits and management reviews
- **Technology:** Use innovations to streamline the way we operate to exceed our customers' expectations
- **Procurement:** Ensure the best selection of suppliers

With our 'Make it Happen' philosophy, our clients can be confident in our standards and focus to promote initiatives that attain and continually improve our quality program.
