

LET TIGER OFFSHORE LUG YOUR LOAD.

Tiger Offshore supports the renewable energy market with a broad range of DNV certified Cargo Carrying Units & Fluid Tanks to advance a sustainable way of life in the US and abroad.

OFFSHORE LOGISTICS SPECIALIST

Tiger Offshore is a leading heavy hauling specialist and provider of rental equipment to the offshore energy industry. At Tiger, we maintain a diverse fleet of DNV certified assets to safely transport virtually any cargo to offshore installations. Our fluid tanks and cargo carrying units (CCUs) solve the daily demands to safely move, transport and store essential materials such as jet fuel, tools and supplies to and from offshore wind, drilling & production sites. Our yards are fully stocked in key ports throughout the US Gulf Coast, and around the world, allowing the equipment you need to be dispatched exactly when you need it, 24/7/365. So whatever you need to lug offshore, count on Tiger to make it happen.

Jet Fuel Tanks

Specialty Carriers

Baskets

Heavy Lift Containers

Refrigerated Units

Tool Boxes/Waste Skips

Make it happen.
